

Contractor Series

With the same **ruggedness and stability**, the contractor series offers greater mobility and capacity on tight job sites. Whether you're hauling broken concrete, dirt, debris, lumber, gravel, or rocks, SDI contractor series trailers will deliver your load precisely. With 3.2 cubic yards of water level capacity or four cubic yards of heaping material capacity.

STANDARD FEATURES

Some of the standard features of the SDI contractor series include the following:

- Smooth Fenders
- Standard hydraulic plumbing
- Sealed tub for water-tight applications
- 4MM Domex 100 XF tub and frame
- Maintenance-free, Nev-R-Lube triple independent suspension
- 2 ⁵/₁₆ adjustable ball hitch
- 45-degree dump angle
- 3.2 cubic yards water level / 4 cubic yards heaping

ADDITIONAL EQUIPMENT

The contractor series comes with optional equipment for additional convenience, efficiency, flexibility, versatility, and durability. They include:

- 8000 pound rated axles with electric brakes
- 2.5-gallon remote controlled 12VDC hydraulic pump
- Gooseneck tongue hitch ball or fifth wheel hitch
- Heavy duty adjustable clevis or pintle eye
- Hydraulic brake axles with brake actuator

WHY YOU SHOULD INVEST IN OUR CONTRACTOR SERIES

Our mission has always been to provide you with the highest quality manufactured products.

Our contractor series is low maintenance to allow you to focus on the most critical areas of your business. There are few parts to operate, and dumping has been made easier and faster through the 45-degree dumping angle.
